**H. W. WYMAN, East Side Postoffice.**

**H. W. WYMAN, Near San Miguel Bank.**

## Las Vegas Gazette.

WEDNESDAY, JANUARY 14, 1885.

### THE CITY.

Look out for a boom. It's coming sure enough.

Never trouble trouble until trouble troubles you.

Cash paid for county scrip by Calvin Fisk, opposite the GAZETTE office.

Belden & Wilson received yesterday the first new tomatoes of the season.

Prof. Boffa is adding a new line of goods to his fine assortment of sweet things.

L. P. Strauss is troubled with a bad cold but he says business is too brisk to think of being sick.

Law and order prevailed supreme yesterday. It's a nice thing to say but it's tough on the reporter.

The stock yards and the wood preserver will make quite an addition to our railroad importance.

The seminary is progressing splendidly, and is truly an institution worthy of a most liberal patronage.

Ice cutting is a big industry at the present writing about Las Vegas and gives employment to hundreds of men.

The meetings in the Baptist chapel are growing in interest. Come in at 7 p. m. and share the benefits with your neighbors.

Go to Shelton's new barber shop in the Plaza hotel for an easy, thorough shave, an elegant hair cut or a delightful shampoo.

Our ladies are figuring on new dresses in which to appear at the opening of the new Montezuma. Little premature but very thoughtful.

All the democrats did not return from Santa Fe yesterday. They will probably be back today unless they gave an other banquet last night.

Browne & Manzaneros have a car load of oranges which they are disposing of at \$30 per thousand. Now is your time to lay in a supply.

We heard yesterday that the little girl recently taken by the negro, Henry Thomas, was not expected to live. The report was not authentic, however.

Dr. C. A. McKinney, whose card can be found in our professional column, has moved his office from Douglas to Grand avenue, opposite Wooster House.

The board of trade at its recent meeting disposed of but little business. However, it did all within its power to advance the wood preserving scheme.

A rail for a good saddle horse will take place at the Plaza hotel next Saturday night. Capt. Maher says only a few of the eighty chances are left. We'll take one, Cap.

A full attendance of all members of El Dorado lodge No. 1, Knights of Pythias, is requested on Wednesday night, January 14th. Installation and other business of importance.

The county assessors meet in Santa Fe today. A new assessment roll or list more perfect than the one now in use should be adopted for the convenience of all parties concerned.

The most elegant, economical, durable and powerful light producers we have seen lately are the new-fangled lamps just received by A. J. Mendonhall. They are justly called Electric lamps.

At the recent meeting of the Las Vegas ice company the old officers were re-elected. Work at the goose ranch is running nicely and already a one-thousand ton house has been well filled with the congealed luxury.

The reception tendered to the Rev. Thornton, the new pastor of the Methodist Episcopal church, took place at the residence of A. D. Higgins last evening, and proved a very enjoyable affair.

A young gentleman who rooms at the store of his employer would do well to put up blinds at the hour of retiring unless he is particularly stuck on his own shape and desires to expose himself to the vision of the passing public.

Considerable complaint is made to us about the butchers hanging beef in front of their place of business. A law was passed by the recent legislature on this point and is now in force. Our butchers would do well to observe its significance.

We know a young man who paralyzed his good New Year resolutions last night. He put a five cent piece in a letter box, sat down in the gutter, and ordered the driver to let him off at Sixth street. He will probably get off with ten cents and costs.

Antonio Velasquez will lead Miss Petrita Roval to the altar this morning at 7:30 o'clock. The ceremony will be performed at the Catholic church, and this evening in Felix Papa's hall will be given a grand reception and ball to the friends of the contracting parties. Long life and much joy to the happy couple is the wish of the GAZETTE.

A report is in circulation to the effect that the academy is about to close its doors and quit work, and certain parties are bespeaking its patrons their children for a private enterprise. This report is false. Las Vegas academy is no more likely to finish its work in this city than Yale college is in Connecticut. Las Vegas academy is here to stay. It is backed by an educational

commission whose work extends throughout five territories, and whose annual expenditure on education is \$40,000. Las Vegas academy relies entirely upon the results of its work for its patronage. W. H. ASHLEY.

We trust the citizens of the east side will not permit their hose company to go by default. All the company asks is that the rent of their hose house be assumed by the citizens whose property they protect from destructive conflagrations, even with their lives. The company has done nobly during her life of nearly three years, being for the most part self-sustaining and of no burden to the taxpayers. In fact, they have indulged the citizens beyond the limit of "fair play," until they imagine, humorously like a child, that the same course must be continued; that is the duty of the fire ladders to protect their property, and still they refuse to come to the relief of the boys in the hour of need. We sincerely hope the necessary steps will be taken, if not, we could not consistently censure the company should it disorganize. Sassa for the goose is assa for the goose, and retaliation is but fair and just even though it does not coincide with the Golden Rule.

### RAILROAD RUSTLINGS.

The timber preserver is a sure thing. Odell goes north with 102 this morning.

The A. & P. is doing a rattling business.

Great Scotland! ain't the excursions getting thick?

Las Vegas is the heavy freight point in New Mexico.

Browne & Manzaneros shipped two car loads of wool yesterday.

The ticket puncher on 101 this evening will be Conductor Blue.

Fuller pulls into Raton today with 104. He lays off at La Junta.

Mendenhall, Hunter & Co., received a spring wagon by freight yesterday.

The A. & P. has at work on the freight runs ten wheeled locomotives.

Joseph Bowles, who was in the recent wreck, went to Raton on 104 yesterday.

The sidetrack beside the freight depot was crowded with loaded cars yesterday.

Geo. B. Williams, division store keeper, leaves for Rowe on 103 this morning.

Browne & Manzaneros received a car of coffee yesterday, and the water company a car of pipe.

A new bulletin book for train men is now open at the depot. Go there for your instructions, boys.

Conductor Posey enjoys life at the Hot Springs. It's not every conductor that can afford such luxury.

Conductor Richley and crew went up to Raton yesterday, and will return tonight with the excursion party.

The Albuquerque Democrat shows its enterprise by running a railroad column. As usual Las Vegas set the example.

Hixon succeeded in getting plenty of sleep last night and will go south with 103 this morning feeling much better.

A pretty good freight list yesterday. Business is evidently picking up, both with the company and our merchants.

John O'Bryan received a car load of household goods yesterday, which looks very much as if he intended settling with us permanently.

S. M. Rowe, resident engineer, and assistants leave for Wallace today. "Work while the sun shines" is the motto of the railroaders.

A bulletin is posted at the depot ordering train men to see that fires are kept in returning emigrant excursion coaches. The object is not stated.

Freight trains are not allowed to make more than eighteen per hour from and after the 13th inst., and fifteen miles on crooked track. Paste this in your hat.

The company received four car loads of ice from Rowe yesterday and had men storing it away in the ice house. It does not equal the Hot Springs ice by long odds.

John Barr, one of the genial clerks in the superintendent's office, after having a lay off for several days on account of sickness, is again able to be out, and will probably resume his duties today.

About eighty per cent. of the bridge piling on this division has to be replaced this season. Wait until the timber preserver is in operation then this work will only be necessary every twelve or fifteen, instead of every four years as at present.

One of Raymond & Whitcomb's excursion parties will reach this city tonight at eight o'clock, taking supper with Capt. Lasher. They occupy six Pullman cars and are journeying for California by the way of Deming and the S. P. road. They leave the city at ten tonight and will spend tomorrow in looking over the ancient, but leave in time to take supper at Wallace. The party is composed mostly of Boston bean biters and we'll bet ten to one they are the rankest tenderfoot that ever struck the territory.

"Have you ever seen that train of white cars that makes the mail train from Chicago?" said the engineer, as he munched a sandwich at a resting place. "No? Well, it's sicker than a square yard of lightning, and it goes full pitch out of Chicago every morning at 3 o'clock. In my opinion it's about the fastest thing in this country. Well, one of the mail clerks invited his wife down to see the train start; the conductor shouted 'all aboard,' and the clerk leaned over to kiss his wife, who was standing on the platform, and bless me if he didn't kiss a cow out at Riverside. Now, that's what I call fast railroad ing."—New York Sun.

Our contractors and builders are busy drawing up plans and specifications for new residences to be built in the spring. We keep pegging away and are growing into more importance every day. Such is the life of an enterprising city out west.

### PRESERVING WORKS.

The A., T. & S. F. to Begin Their Erection Immediately.

Las Vegas the Chosen Site for This Great Enterprise.

At last the long anticipated wood preserving works of the Atchison, Topeka & Santa Fe company is to grace our city with their presence. Nearly a year since the idea was first mentioned, and at the time elicited much newspaper comment, but now the original scheme will be perfected by the erection of the buildings, side tracks, etc., necessary to make it complete. A representative of the GAZETTE called upon Superintendent Dyer at his office yesterday and inquired as to the certainty of this great enterprise being located here. In reply Mr. Dyer assured us that the works could be depended upon and that the work of grading the site would be commenced within twenty days. A plat of the yard, side-tracks and buildings was shown us, giving in full the details and dimensions. The company will use the Line Tonier chemical process, which is owned and operated by the St. Louis wood preserving company. This process was awarded the gold medal at the national exhibition of railway appliances, held in Chicago, June, 1883, as the best process for preserving wood, cross ties and timber.

The works will occupy a strip of ground three thousand feet in length by several hundred in width. The chosen location is south from the depot, commencing just below the bridge which spans the Rio Gallinas; the buildings and side tracks to be on the west side of the main line. The side tracks, six or seven in number, will average about two thousand four hundred feet in length, and besides these a number of narrow-gauge lines will be laid, over which to run push cars to transfer timbers from the green racks to the machinery, and from there to the seasoned racks. A number of large buildings are necessary of the following dimensions: Boiler house and machine shops, 30x100 feet; main building, in which will be located the pumps, reservoirs, injection cylinders, 40x120 feet; oil storage house, 50x70 feet; three large tanks, 20x30 feet each, used to hold the following ingredients essential in seasoning timber: creosote, tannin, chloride of zinc and gellatine, and a storing house, 50x50 feet. Besides these buildings four large racks, 100x305 feet, will be built, two south and two north of the works. The green timber will occupy these below and after going through the process the timber will be piled on the racks, or platforms, north of the works, from where they will be loaded onto cars and shipped along the line.

The works will have sufficient capacity to season all the timber for the road from Raton to Deming and El Paso. After going through the process the timber will last from three to four times as long as when used green, and will thereby be a point of economy to the company in more ways than one.

The treating of the timber is a complicated application of drawing the nature of the wood, selecting a preserving preparation which would be hard to describe. The company has been using New Mexican pine, but, until treated, it is not particularly lasting. After being subjected to this process, it is very superior timber. This industry, when generally adapted throughout New Mexico, will prove of importance.

In the grading track laying and erection of the various buildings from seventy-five to one hundred men will be employed, and when completed nearly that number will be necessary to operate the works, thus giving employment to our laboring men and adding a new feature to the importance of Las Vegas. The machinery will be put in place as soon as the yards shall have been completed, and before many months this new enterprise will be in running order. Mr. Dyer assured us that home labor would be employed in all the work save the putting in of the machinery, which will of necessity require men familiar with its workings. This invention has been successfully tested in Texas, and has been proved a grand success wherever operated.

Let the good work go forward. There is nothing in the way of Las Vegas to stop her from reaching the highest rung in the ladder of prosperity, and with the co-operation of the Santa Fe we are destined to reach the climax at our highest anticipations.

### Communicated.

To the Editor of the Gazette.

The contemptible apology for a man living in East Las Vegas, who sent a hack driver with his compliments to a respectable young lady last evening, with a request that he be allowed to call in person, will find it much to his advantage to attend to his own business and not try to force his acquaintance on the ladies of Las Vegas. His manner of persecution has gone far enough and there are enough honorable men left in New Mexico to see that it stops.

A LADY.

Las Vegas, Jan. 13.

An unknown tramp, a waif on the cold charity of the world, crawled into one of the cars attached to the A. & P. boarding train, in the lower end of the yard, last night, for shelter from the cold. When the men awoke this morning the stranger was found dead. No one knew him, none knew his face, and like so many others, he must be buried without a headstone. Coroner Pearce was notified and held a postmortem examination which disclosed the cause of his death—heart disease. An inquest was held at 2 o'clock by Justice Heacock.—Democrat.

The editor of the Mora County Pioneer has evidently been "thumped" by some indignant citizen, at least so we judge from various expressions in a recent number of that journal.

### PERSONAL PENCILINGS.

Frank Springer is in Santa Fe. James Campbell is at the ranch. J. C. De Lany, of Fort Stanton, is in the city.

Felix Martinez returned by yesterday afternoon's express from Santa Fe.

John H. Kogler took 101 last night with his grip checked for Santa Fe.

Rox Hardy, of the Stock Grower, paid his respects to Springer yesterday.

Mr. A. Leon started in return for Trinidad, after spending a few days in our city.

Ed. G. Murphy started yesterday for his Lincoln county ranch, to be absent a week or more.

W. D. Kistler took last evening's 101 for Santa Fe, where he represents this county in the assessors' meeting today.

W. A. Vincent returned from the ancient yesterday, apparently none the worse for being a participant in the grand banquet.

Major Richardson took a trip to the Springs yesterday to look after the ice business. The major is very enthusiastic on the subject.

Mr. L. Hostetter and newly made bride were guests of Miss Dold yesterday. He has taken a new partner into the firm from Omaha.

Col. S. M. Barnes, our recent capture from the ancient, arrived from that burg yesterday afternoon. The judge may be found in the rooms recently vacated by G. W. Priebeard.

James Disney, who has been at work on the new Montezuma hotel, boarded yesterday afternoon's passenger bound for his home at Topeka. He has had steady employment for the past four months on the hotel.

Hon. T. Luna continued his journey to Chicago by yesterday afternoon's coach, after spending twenty-four hours in the queen city of the southwest. He did not get a contract to pave our streets, however.

Senator E. G. Ross arrived in this city yesterday morning from Albuquerque, remaining among his many friends here until the departure of the afternoon express. Gov. Ross will probably be his title after March 4.

### Notice.

Notice is hereby given that the firm of W. W. Rawlins & Co., of Las Vegas Hot Springs, have this day dissolved. All debts due said firm must be paid to Clem Stockbridge, who will carry on the business at the same stand.

### Great Reduction in Prices.

Shaving 15 cents, hair cutting 25 cents, sets for 10 cents, shampooing 10 cents, boots blacked 10 cents. First-class hot, cold and shower baths 25 cents. Tony's parlor barber shop, the best and largest tonsorial parlor in the city. Only first-class barbers employed. Give us a call and be convinced. Satisfaction guaranteed. Bridge street, near postoffice, old town.

### A Strong Endorsement.

As a tailor Frank T. Robinson is endorsed as being an artist in the profession, and during the past fifteen years has been with the Temple of Fashion of Ohio, with Peters & Trout, the largest and most popular cutting department in that state. Mr. Robinson can be found any day at the Plaza hotel from 6 to 9 in the morning, from 12 to 2 in the afternoon and from 6 to 9 in the evening. The following is from the firm:

To whom it may concern:—The bearer, Frank T. Robinson, has been in our employ for fifteen years past. He is a first-class and practical cutter. On account of a severe spell of sickness he seeks rest and recreation, but will devote a portion of his time in the interest of our business, still further extending our trade. He is highly trustworthy of your confidence, and any orders entrusted to his care will receive our personal attention and carefully and honestly carried out. Respectfully,

PETERS & TROUT.

We are acquainted with all the above facts and fully endorse them.

THEO. MITHOFF.

Prest. Hooking Valley Nat. Bank.

P. RISING.

Prest. Fairfield Co. Bank.

JOHN D. MARTIN.

Prest. Lancaster Bank.

The Mountain Bath House, on Zion Hill, is reopened, nicely carpeted, and neatly furnished, where excellent hot or cold baths can be had for 35 cents. Private entrance for ladies. Also handle Fine Wines, Liquors, Beer and Cigars. k-25 26.

For New Mexico during the New Orleans World's Exposition, 268 Magazine street, general office and exhibition ground, Government building, St. Charles avenue main entrance.

P. LANGHAMER.

U. S. Commissioner for New Mexico.

The most elegant tonsorial apartments in the city will be thrown open to the public on Monday next by Mr. William C. Marmaduke. He has fitted up a place in Tamme's building, Center street, and has a corps of skilled workmen to attend to the needs of the unshaven and unshorn. 1-19 1f
